CASEY CORDER

SKILLS

Solutions engineering, basic data architecture, implementing new technologies, object-oriented methodologies, Scrum SDLC, planning, leadership

Technical Proficiencies: ASP.NET, Web Forms, MVC, C#, Razor, JavaScript, jQuery, AJAX, JSON, XML, CSS, SQL, Oracle, Visual Studios, TFS, Scrum, SQL Developer (Oracle), SQL Management Studio, Entity Framework, DevExpress

EXPERIENCE

KeyLogic Systems Inc., Morgantown, WV

Software Developer

02/2011 - Present

Gather requirements and implement web-based software solutions for government and private sector entities. Assist with application architecture and design. Use the Scrum development lifecycle with Team Foundation Server. In the past, helped develop one of our first MVC solutions, and taught other developers how to implement MVC using ASP.NET, JavaScript (AJAX in jQuery), and DevExpress. Recently acted as tech lead on a project which was the first to use Entity Framework instead of our current/outdated ORM. Clients: Department of Energy, Environmental Protection Agency, and National Aeronautics and Space Administration

ANSYS Inc., Canonsburg, PA

Software Developer in Test (intern)

05/2008 - 08/2008

Developed test scripts in IronPython to probe the functionality of builds for the release of new ANSYS software. Ran modules and documented bugs that were found. Learned and utilized the test-driven development methodology that was in place.

EDUCATION

West Virginia University, Morgantown, WV

B.S. Computer Science

08/2006 – 05/2011

B.S. Mathematics

08/2006 – 05/2011
